## About the Merakey Foundation

---

The Merakey Foundation is the charitable arm of Merakey, one of the nation's largest providers of education and human services. Through its fundraising activities, the Foundation enables Merakey programs the ability to provide exceptional quality of care to the most vulnerable members of our community despite public funding cuts and the stressed economic climate. The Merakey Foundation subsidizes and invests in quality of life programs and initiatives where funding falls short, in an effort to provide seamless, uninterrupted care for the individuals who depend upon Merakey services.
